Come See Us!

Draíocht, in partnership with Fingal County Council, has launched, **Light Up**, a new project for 2021, which sees us commission some really exciting artists to create outdoor digital art projections for everyone to enjoy. This is just one way we are staying in touch with our community and artists. While our building may be closed to the public for periods of time this year, from dusk each evening, it will continue to come alive with imagination, by becoming a living artwork, changing every few weeks.

Our first projection is a work by artist and illustrator **Alan Nolan** called **We Can Be Heroes** ... a work created especially for children, to celebrate a sense of new beginnings and optimism, after a very tough 2020.

We rightly laud our frontline staff as heroes for their work, but kids have been equally brave and have lost huge chunks of their childhood – they have missed out on birthdays, parties, school friends and school ceremonies; many have even lost loved ones. Yet they bounce back like heroes. Kids deserve to be honoured as such and to know that the coming year will be better.

ALAN NOLAN

Alan's projections will Light Up Draíocht until mid March. We hope you come and visit **We Can Be Heroes** and enjoy this activity sheet. You can also pop over to Draíocht's YouTube Channel to watch a video with Alan Nolan as he shows you how to be a hero at home and create your own illustrated characters.
